

Food Statement FDA

Belt covers & accessories

Introduction

The Food and Drug Administration (hereafter called FDA) of the Public Health Service of the Department of Health, Education and Welfare, established in Washington DC 20204, United States of America, is the world's best known authority involved in consumer protection in respect of potential detrimental influences, which could be caused by any inclusion of substances or ingredients of an unacceptable nature in foodstuffs and confectionery. The FDA have prepared a review 'Title 21: Code of Federal Regulations' in respect of their approval of the raw materials in a processed or finished state, and also specified the conditions under which the approval is valid.

Statement

Ammeraal Beltech herewith declares that the cover of the following belt types and belt accessories meet the requirements mentioned in Title 21: Code of Federal Regulations, issued by the FDA. This statement is also valid if the mentioned cover is in antimicrobial execution; this is indicated in the belt nomenclature as 'AM'.
